Phenotype Download Help

This archive is a list of all phenotypes recorded in the PharmGKB knowledgebase. Many of these phenotypes are disease or disease-related but not all of them are. Not all listed phenotypes are involved in annotations by PharmGKB.

Columns in this archive

1. PharmGKB Accession Id = Identifier assigned to this phenotype by PharmGKB
2. Name = Name PharmGKB uses for this phenotype
3. Alternate Names = Other known names for this phenotype, comma-separated
4. Cross-references = References to other resources in the form "resource:id", comma-separated
5. External Vocabulary = Term for this phenotype in another vocabulary in the form "vocabulary:id", comma-separated
